Gateway to Science |1810 Schafer Street, Suite 1| Bismarck, ND 58501-1218 | 701.258.1975

Gateway to Science is a 501(c)(3) tax exempt organization. Your gift is tax deductible to the fullest extent of the law.
Gateway to Science is North Dakota’s hands-on science center. Our mission is to inspire the discovery of science through hands-on experiences.

We further this mission by operating an interactive exhibit gallery in Bismarck and by developing and implementing educational outreach programs across the state. As an informal setting, we compliment the formal education system and offer youth, families, and the public a fun, stress-free gateway to explore science, technology, engineering, and math (STEM).

Our programs, including STEM Adventure Club, summer camps, Preschool Discovery Hour, and Girls Who Code, spark students’ interests and connect their passions with STEM education and career opportunities in North Dakota.

Gateway to Science has experienced tremendous growth over the past decade. The time has come for a new, stand-alone science center to serve visitors of all ages from across the region and to anchor Gateway to Science’s statewide outreach programs.

The proposed facility will house an expanded, hands-on exhibit gallery, which will tell the story of innovation and opportunity in North Dakota with exhibits on energy, agriculture, health care, transportation, and more. The facility will also feature a fully-equipped laboratory classroom, indoor and outdoor classrooms, and a flexible maker space.

Our visionary, multi-phase project will provide a much-needed hub for hands-on STEM experiences and will stand as a legacy for generations to show our commitment to education and innovation. Investing in Gateway to Science is investing in North Dakota’s future.
